

Emma Chenier

Education

- BA, Political Science, Arizona State University

Qualifications

Emma brings a strong blend of communication, organizational, and technical skills to support document control and stakeholder/public outreach to support construction management services. Her experience includes creating engaging content for social media platforms like Instagram, TikTok, and Twitter, which aligns well with efforts to keep the public informed and engaged. Additionally, Emma has experience in policy analysis and document compliance, ensuring accurate and timely submissions that meet regulatory standards. She has demonstrated leadership in organizing informational sessions and collaborating with clients, helping to build trust and support for new processes.

Her ability to manage projects under tight deadlines while delivering clear messaging and maintaining transparency will be an asset to the project team. Emma has successfully driven brand awareness and customer engagement through strategic marketing campaigns, and her proficiency with tools like Microsoft products, Google Suite, and Canva makes her a valuable resource for creating outreach materials and presentations. She excels in fostering collaboration and ensuring that communication between stakeholders, team members, and the public remains effective and efficient.
